The Reflector.

THURSDAY, AUGUST 16, 1888.

FRANK A. SMALLEY, Attorney at Law

ABILENE, KANSAS.
Southeast Corner Broadway and 3d Streets.

The Manhattan city council is so small-minded that it wants the city printing done at one-tenth legal rates.

The attention of the city dads is respectfully called to the villainous sidewalk on the east side of North Spruce street.

It is reported that a Detroit baby has swallowed so many pins and buttons that it gives a metallic sound when spanked.

The average school board member now gets down his gun when he sees a young man or young woman headed in his direction.

William D. Robb, of this city, was yesterday granted a patent on a "combined step and platform attachment for ladders."

There is a most encouraging increase in business recently, owing to the bountiful rains with which this section has been blessed.

No danger but what you will be greeted by a pleasant smile and warm hand-shake now-a-days. The candidate is abroad.

All the railroad lines running to Abilene have consented to make a rate of one fare and a third for the coming race meeting.

The farmers say that the corn crop will be a good one and while it will not be so enormous as was at first expected, it will be a very satisfactory yield.

The Democratic county central committee met Saturday and decided upon Sept. 15th as the date for the county convention and Sept. 13th for the primaries.

The pottery works will soon be under way. The company has just completed the first brick smoke-stack ever built in the county. A new engine is expected on every train.

Whatever may be the local disturbances in the Republican ranks of other counties, the party in Dickinson is united and enthusiastic for Harrison, Humphrey and Harmony.

We receive No. 1, Vol. 1, of the Barnard Times, a new candidate for journalistic honors. The paper is a bright quarto and will do much good for the town. We wish it success.

The north Dickinson teachers will hold their sessions on the fourth Saturdays of January, February and March, 1889, instead of the third Saturdays of these months, as was announced last week.

The difficulty in securing water at the fire Sunday morning was not caused by any fault of the water works company, but was owing to the fact that the boys did not know the location of the hydrant.

The streets of the city are being put in excellent condition by means of road scrapers. Street Commissioner Powell is filling his office acceptably and the hundreds who enjoy a drive these pleasant evenings are willing to testify to it.

We wonder if the men and boys who are so free with melon rinds are aware that throwing such rubbish in the streets or alleys is expressly prohibited by law. Perhaps when somebody is "pulled" and pays a handsome fine, the offenders will be more careful.

There seems to be very little anxiety among the local Democrats to offer themselves to be sacrificed at the county elections. We serve warning upon the opposition right here and now that this is a Republican year and old Dickinson proposes to let the Republicans make a clean sweep of the ticket this fall.

We learn that W. A. Stacey, of Industry, has been engaged by the Hope school board to act as principal of the city schools for the coming school year. Mr. S. is a wide-awake, hard-working teacher and we congratulate him upon having secured the position. The school term will be nine months and will commence Sept. 10th.

We announce today the name of I. L. Hart who will be a candidate for nomination for Probate Judge before the Republican county convention. Mr. Hart is one of the oldest Republicans of Dickinson county, having supported the party since its formation. He is a man whose uprightness of character and sincerity of purpose can be trusted.

The announcement of J. L. Galbraith for District Clerk appears in this issue. Mr. Galbraith has been a resident of Solomon City for twelve years and by his upright and straightforward conduct has won the esteem of all who know him. He was secretary of the last county convention. Mr. G. is well qualified for the office to which he aspires, and if elected will fill the office with credit to himself and to the satisfaction of the people.

TOOK THE VEIL.

Miss Mary McInerney Leaves the World and Its Vanities and Joins the Sisterhood of St. Joseph.

Tuesday evening at the college of the sisters of St. Joseph was an interesting event in the reception into the sisterhood of Miss Mary McInerney, one of Abilene's most talented young ladies. For a long time Miss Mary has been preparing herself for this step, according to the ordinances of the Catholic church, but only yesterday did she take upon herself the vows which bind the votary to a life of self-abnegation and labor for others. The young lady who has just foresworn the world and its vanities enters now upon what is called the novitiate and which extends over two years. During that time the novice is only on probation and is not permitted by the church to take the final vows until its expiration. Then, if satisfied with the work, allegiance to the order is promised for a year at a time; but so strong is the influence of such a life and so infatuated are the members of the sisterhood usually with it, that it is extremely seldom that once entering ever withdraws.

Miss McInerney will be a valuable acquisition to the society as she has been carefully educated and is a thorough, conscientious student. She graduated at the Leavenworth Academy in 1885 and last year graduated from the Quincy, Ill., Conservatory of Music. She is a charming musician and has led the Catholic choir since her return from school. Father Leary says he has never seen her extraordinary skill in managing a choir as well as her superior musical ability surpassed. That she is a lady of remarkable piety is evident from the fact of her devoting her life to religious duties and devotions.

She will not be alone among the novices of the college as several have already joined from Junction City and Manhattan and others are preparing. Twelve of the sisters in charge of Mother Superior Bernard will be located here and conduct the St. Joseph's college during the coming year. Miss McInerney under her new name which has not yet been decided upon, will have charge of the musical department. The sisters make their home at the college and wear the habiliments of nuns, but are allowed by the Mother Superior generous privileges, such as visiting their friends, etc.

Miss McInerney is a daughter of Abilene's well-known merchant, T. C. McInerney, whose family now loses a member valued and loved. But though they may mourn her departure from the circles of home, they are happy in the thought that she will spend the years in serving the Master with a devotion and a self-sacrifice that it is given to but few to exhibit.

At Enterprise the boys swim in the Smoky arrayed in nothing but a bronzed complexion. Some of the "undressed kids" ought to be "tanned."

A new school district has been formed around Manchester and the young ideas of that city will be able to "shoot" at home after the school board gets a school house up.

Hope is going to erect a "corn" palace on its fair grounds next month. The chiropodists of Kansas are requested to send in samples culled from the pedal extremities of their patients.

Since the Hiawatha church was blown down, the godly-minded people of that section have been worshipping in the shade of one of the immense corn-stalks that grow in that vicinity.

Herington people go out to their park on pleasant Sundays and put in the day drinking spring water and fighting chiggers. It is said that nearly the whole city is now engaged in the latter occupation.

Chapman gets its religion and morality dished up in solid chunks in John Engle's Courier. The fact that Democratic and United Labor tickets appear on the opposite page rather mars the solemnity of the occasion.

Carlton would like to see some blooming young journalist with lots of cash, hope and patience settle down in its midst and proceed to deal out patent medicine ads and typographical errors at a subscription rate of one dollar per year.

Washburn College, at Topeka, Kansas, is easily accessible to all parts of the State. The advantages which it offers for the study of English, Ancient and Modern Languages, Science, Music, Painting and Eloquence, are unsurpassed. The fall term begins Sept. 12th.

The Salina Record, J. M. Davis' new weekly, promises to be one of the brightest journalistic children in the 5th district. Mr. Davis is well known as a bright writer, and this first issue is his best vein. While the Record is Democratic in politics, it will not support Dr. Tobey for Congressman because, as it says, "he has betrayed us and we believe he will betray other of his friends who gave him the only prominence he ever had." We wish the Record success.

Burton for Representative.

Hon. J. R. Burton today announces himself as a candidate for the Legislature from this Representative district. Mr. Burton represented the district in the Legislature from 1882 to 1886, and during that time he won for himself a State reputation as a statesman, orator and parliamentarian second to none in Kansas. During every campaign since 1878 when Mr. Burton first reached Abilene, he has been found an earnest, devoted advocate of Republican principles and Republican candidates. In each campaign he has been invited to make speeches in every part of the State, and he has responded to the satisfaction of the Republicans all over Kansas. And now the State Central Committee, of the State of Maine, in which the first great contest of this campaign will be fought, sent to Kansas for her ablest and best orators to come and assist in rolling up an overwhelming majority for the Republican party in that State, and among the very few who received an invitation to come to that State is the Hon. J. R. Burton, who left this morning for Portland, Maine, where he will join in the first great meeting of the campaign with Hon. J. G. Blaine and Hon. Warner Miller, of New York. This fact shows that Mr. Burton is not only appreciated as an orator and speaker, but that his reputation extends throughout the Nation. Mr. Burton is thoroughly familiar with the public men and public measures of the State of Kansas. He is probably as well qualified to legislate upon any issues that will likely come before the Legislature in January next as any other man that can be selected. It is certain that if he is elected, his influence will be felt in the Legislature as it has always been in the past, and the District can be assured that if he is elected that its interests will be in safe hands. We predict for Mr. Burton the unanimous support of the Republicans of the 6th Representative district.

Don't forget Saturday's ball game, White City vs. Abilene. A good time and some good playing.

Banner City merchants, whenever there is a picnic within twenty-five miles, "shut up shop" and go. They claim that recreation is more necessary than money.

J. R. Burton, of Abilene, has prize in a "Harrison and Reform" metal button. It was captured by Lewis Teeters, of Dickinson county, at Edgefield, S. C., in July, 1885. Mr. Teeters was a member of Co. A. One Hundred and Twenty-ninth Indiana infantry, and was at that time out on a little Republican excursion. The button was cut from an old broadcloth swallow-tail coat belonging to a planter. —[Kansas Cor. K. C. Journal.]

Among the county officers to be elected this fall is to be a County Superintendent of Public Instruction. The indications are that the present incumbent, J. S. Ford, will be renominated and re-elected practically without opposition. Mr. Ford has filled the office during the past term most acceptably to the people of the county. He is not only well-fitted by education for the place but his conscientious attention to duty has endeared him and his administration to the public. Mr. Ford is bringing the schools of this county to a high standard and he fully deserves the endorsement of his administration which will be given him.

"Our Burton" Honored.

Hon. J. R. Burton and wife left Saturday for the East. Mr. Burton has been honored by an invitation from the Hon. J. H. Manley, chairman of the Maine Republican State Central Committee, to assist in the campaign in that State, and he enters upon the work next week. The following is Mr. Manley's letter:

REPUBLICAN STATE COMMITTEE.

1888.
JOSEPH H. MANLEY, Augusta, Chairman.

AUGUSTA, ME., July 13, 1888.
HON. J. R. BURTON, Abilene, Kas.

My Dear Sir—The Republican speaking campaign in Maine commences Wednesday, August 15, and closes Saturday, September 1, I extend to you, on behalf of the Republicans of Maine, a most cordial and earnest invitation to participate in this contest.

Maine is to be the first State to speak decisively in the coming campaign. It is unnecessary for me to dwell upon the importance of the struggle here. You can render valuable service to your party throughout the country, if you will accept a cordial and generous welcome from our people. Trusting I may receive an early and favorable reply, I have the honor to be, Sir, your obedient servant.

Yours obedient servant,
J. H. MANLEY, Chairman.
Mr. B. will be present at the opening meeting in Portland next Wednesday night, and will speak almost daily until September 10th, the date of the State election. The calling upon Mr. Burton is a deserved honor to Abilene and Dickinson county, as well as to one of Kansas' foremost orators, and proves that his fame is rapidly becoming national.

Mrs. Burton will accompany her husband on his trips through Maine and upon their return will stop in Washington, D. C., for several weeks visiting with relatives.

Mr. Burton will probably also assist in piling up Harrison's majority in Indiana after the Maine contest is over.

Examination Results.

The examining board completed its labors last Thursday.

Three first grade certificates were issued to the following named teachers: Fred D. Carman, of Herington; J. F. Landis, of Abilene, and Lucy G. Stacy, of Industry.

Seventeen of the teachers secured second grades, while seventy of them only attained a third grade, and forty-five failed entirely.

The many failures and the low grades made by those who secured certificates were due largely to the puzzling character of the questions and not to any deficiency of knowledge on the part of the teachers. The ladies and gentlemen worked hard during the normal and their answers to the questions propounded showed that they had a wide knowledge of the things they are expected to teach; but many of the questions were so irrelevant to the topics at hand (and this was true especially of the arithmetic questions) that it would have required walking encyclopedias to have successfully handled them. The examiners say that outside the arithmetic papers the applicants' grades averaged considerably higher than did those of last year.

We congratulate those who did succeed and assure those who failed that they had a good excuse for so doing and that their reputation as students and teachers is in no ways injured by their failure to secure the desired grade of certificate.

Death at Chapman.

Tuesday occurred the death of an aged resident of Chapman, Mr. James McMillen. He was well along in life, being 81 years old last June. He has been quite feeble for some time and his death was practically the result of old age. Mr. M. had seen much of life and took a keen interest in the events of the day but yet was willing to face the dread summons of death when it came to him.

The funeral services were held in Chapman Wednesday at 2:30, and the body, worn out by the buffet of life, was laid away to its eternal sleep.
